Plasmacluster®

Home Testimonials **Features** How it Works FAQs Watch the Infomercial **BUY NOW!**

THE SHARP AIR PURIFIER DOES WHAT NO OTHER SINGLE UNIT CAN DO:

- It monitors your air quality with an innovative dust and particulate Monitor.
- It cleans and deodorizes your air with a Triple Filter system including a True HEPA filter.
- It treats your air with patented Plasmacluster® Technology and Humidification.

And it does it all in one money-saving, elegantly designed unit that's Library Quiet™.

Both the Standard Model and Compact Model have this same powerful set of features. They differ only by size and cleaning power. Choose your Sharp Air Purifier based on the size of your room.

The Standard Model (KC-C150U) is powerful enough for a living room or family room up to 347 square feet, or about 18' x 19' in size.

The Compact Model (KC-C100U) is ideal for a study, bedroom or home office up to 254 square feet, or about 14' x 18' in size.
